ARCTIC GRIP

WET ICE TECHNOLOGY

WET ICE TECHNOLOGY

Vibram Arctic Grip is a state-of-the-art sole technology that is changing winter footwear representing the most advanced cold-weather gripping system Vibram has ever created.

Vibram Arctic Grip perform best when sole designs incorporate wider lugs with direct ground contact for wet, icy surfaces.

INNOVATION

Vibram Arctic Grip is a new approach to the grip in icy surfaces (especially on wet ice). The technology combines a Vibram compound optimized for durability and all-round performance, with an advanced filler system made of rubber compound, wich provides unparalleled grip on wet ice

BENEFITS

- Specifically engineered and designed to perform on wet ice
- Vibram performance, quality, durability
- Improved grip on cold, iced, or snowy surfaces compared with existing Vibram soles

WARNING

This product will not prevent slipping on any surface. ALWAYS TREAD WITH CARE

This product does not replace use of spikes

This product is not intended for use on, and may harm, indoor surfaces.

Enrique AG
